

## **ClickBase Sales Report Accelerator for AccountMate Announced Today**

*Tight integration and built-in reports right out-of-the-box capitalize on how AccountMate clients can make better decisions with relevant sales data.*

Petaluma, CA ([PRWEB](#)) February 23, 2015 -- Today David Dierke, CEO & President of AccountMate Software, announced that the ClickBase Sales Report Accelerator is available for sale to AccountMate clients. David Dierke notified AccountMate Solution Providers that “the ClickBase Sales Report Accelerator for AccountMate can be sold as its own sales reporting solution without the client having to buy the full Business Intelligence solution. But important for me to mention, too, is that it can serve as an introduction to the benefits that clients can expect if ever they need the full ClickBase Business Intelligence product.”

This ClickBase sales analysis solution comes with built-in reports right out-of-the-box. Clients can analyze their sales by item, by customer, by territory, etc., using the ‘drag and drop’ approach to add or remove reporting items. They can quickly determine their top ten customers just by clicking on the total sales column to sort from highest to lowest. Then add in the gross margin for a better view of their profitability by customer or by item. As AccountMate and ClickBase clients are accustomed to doing, the ClickBase Sales Report Accelerator enables drill down to the transaction level whenever they want.

A big benefit, too, is that this fully-integrated ClickBase Sales Report Accelerator for AccountMate can be up-and-running with less than an hour-long installation.

AccountMate clients have had the long-time experience with ClickBase business intelligence solutions. This newest ClickBase product introduction re-enforces the fact that real time analysis can drive better management decisions based on quick and pertinent reporting information and graphics.

### **About AccountMate**

Founded in 1984, AccountMate develops and markets fully modifiable business accounting software. Systems range from single user versions to those that support hundreds of users simultaneously. AccountMate software is available for local installation or as SaaS. It is distributed exclusively through a worldwide channel of authorized solution providers.
