ACCU-DART

_____

Product Description

Do you need to know precisely what is in your warehouse at all times?
Are you wasting valuable time manually entering data into your accounting system?

If so, your business could benefit from implementing an inventory control solution to improve inventory accuracy and save valuable time and money.

ACCU-DART is an inventory control solution, designed to **integrate directly with AccountMate in real time**. Using radio-frequency scanners, ACCU-DART allows the warehouse staff to instantly and easily update the accounting system, ensuring that all users throughout the organization have the most up-to-date information.

Save Time: ACCU-DART updates transactions directly to AccountMate in real-time, saving time in the warehouse and office, and increasing efficiencies.
Improve Inventory Accuracy: ACCU-DART verifies that the correct items are being scanned for every transaction, reducing errors and improving inventory accuracy.
Affordability: ACCU-DART is 100% modular – purchase only the functionality needed to improve your business operations.
Functionality: ACCU-DART is a functionally-rich solution, offering a wide variety of modules that can be customized to your unique needs.

Some clients have discovered that by incorporating a real-time inventory control solution, they save more than 2-3 hours of work each day, reducing the time it takes to ship orders by 50%.

ACCU-DART is an affordable, easy-to-use inventory management solution that will improve your business operations. Please visit www.accu-dart.com for more information, or to see a video demonstration of how ACCU-DART works.

Company Profile

Executive Concepts Inc. was established in 1988 with the objective of providing information system solutions to our clients. Our combination of business and technical expertise has allowed us to deliver on this objective.

ACCU-DART is a result of years of experience in providing cost effective and efficient solutions to warehouse and manufacturing operations. We realized that there was a need to provide real time integration between the warehouse or shop floor, and the information system. ACCU-DART will revolutionize the way your operation runs.

We recognize that not all products are an exact fit. We offer consulting and customization services.

KEY FEATURES
