

Solution Provider Customization Training for Enterprise 2018

This 5-day Customization course offers valuable information that will give attendees a deeper understanding of the AccountMate Enterprise system architecture and framework. You will learn how to extend the system using the software development kit (SDK) along with Visual Studio. The last day of the course will cover how to create and customize reports using the built-in Report Designer.

Target Audience:

This course is intended for AccountMate Business Partners and Vertical Solution Partners who will be customizing AccountMate Enterprise 2018.

Before the attendees complete registration and pay fees, they will receive a phone call from AccountMate to go over the specifics of the pre-requisites listed below.

Pre-requisites:

Attendees must be familiar with the AccountMate Enterprise 2018 user interface, and have a working knowledge of Visual Studio development tools, C#, WPF, Transact-SQL programming syntax, SQL Server, and Report Builder. Completion of Microsoft training courses or prior programming experience in these technologies are required before taking this modification course.

Attendees must bring their laptops to the training. During class, the development environment will be set up including:

- AccountMate Enterprise 2018
- AccountMate Enterprise 2018 SDK (Software Developer Kit)
- Visual Studio 2017 Community, Professional, Enterprise
- Report Builder 3.0 (for SQL Server 2014 version)
- SQL Server 2016 (or SQL Server 2014 or SQL Server 2012) databases with Management Studio
- Telerik UI for WPF 30-day Evaluation or Full License

General Information:

Class times are 8:00 am – 5:00 pm all five days. Classes are held at the AccountMate Corporate Headquarters at 1445 Technology Lane, Suite A5, Petaluma, CA 94954. Directions and nearby hotels can be found on the AccountMate website [here](#). There is a fee for the training. Travel, accommodations, and expenses are not included.
