

Avalara AvaTax

Product Description

Avalara AvaTax dynamically delivers instantaneous sales tax decisions based on precise geo-location in more than 12,000 taxing jurisdictions in the U.S. AvaTax automatically assigns hundreds of thousands of taxability rules and the latest jurisdiction boundaries to deliver the right rate and tax calculation.

Company Profile

Avalara is a leading provider of sales tax automation software, helping businesses manage the complexities of transactional tax compliance. Founded in 2004 with the desire to make sales tax management easier, Avalara is now a top-rated technology company with tens of thousands of customers globally.

Avalara cloud-hosted solutions streamline the complicated and burdensome process of managing tax-related activities and are pre-certified to integrate with 300+ accounting, ERP, and ecommerce platforms. Avalara processes millions of tax transactions daily, files hundreds of thousands of transactional tax returns annually, and manages millions of exemption certificates and other compliance documents on behalf of its customers.

KEY FEATURES

- **Precise Rate Determination:** Advanced geocoding technology provides the basis for precise identification of tax jurisdictions and roll-up to a total tax rate.
- **Address Validation:** Instantly verifies and applies address information using the most accurate and up-to-date U.S. Postal Service-approved data available.
- **Reporting:** Generates summary and detailed reports easily and on demand.
- **Sourcing Rules:** Programmed with the latest information for handling destination based, origin based and hybrid sourcing rules.
- **Product Taxability:** Stores hundreds of thousands of product taxability rules for jurisdictions across the U.S. These rules are constantly updated so your tax calculations are always accurate.
