

# Budget Maestro

## Product Description

Budget Maestro by Centage allows financial executives to easily transition away from error-prone, disparate spreadsheets to an automated system that provides comprehensive budgeting, forecasting, consolidation and reporting tools. Mid-market companies looking to move forward to a more flexible, secure, collaborative system can turn to Budget Maestro for an intuitive out-of-the-box solution. Budget Maestro is ideal for a host of industries, including manufacturing, healthcare, wholesale/distribution, retail, business services and nonprofits.

Budget Maestro provides a centralized, secure database so that any changes or additions to a company's data are updated automatically. Its powerful calculation engine ensures that all debit and credit calculations are not only mathematically correct but follow sound accounting principles. This means that data is 100% accurate. With Budget Maestro's wizards, prompts and menus, you simply enter the data and the system does the work for you, eliminating the need to create and maintain complex formulas, macros and links. All your changes are automatically updated throughout your plan.

## Company Profile

Budget Maestro® by Centage is an easy-to-use, scalable, automated budgeting, planning, and forecasting application. It is designed for mid-market companies and automates many of the time-consuming and error-prone activities associated with using spreadsheets to generate accurate budgets and forecasts. It features built in financial and business logic that allow users to build and update their budgets and forecasts and never worry about formulas, functions, links or any custom programming. It is the only solution in the market that offers synchronized P&L, Balance Sheet, and Cash Flow reporting that generate automatically and seamlessly update. Budget Maestro serves more than 8,000 users worldwide.
