

Equipment & Software Financing; Short Term Working Capital Loans

Product Description

Equipment & Software Financing:

We provide competitive financing between \$5,000 and \$5 million for small to midsize companies throughout the US and Canada. We can finance 100% of every transaction including professional services, labor, installation, maintenance and training.

Short-Term Working Capital Loans (\$5,000- \$500,000 and lines of credit up to \$100,000)

Dimension Funding provides unsecured lines of credit and short-term working capital loans to small and medium-sized businesses.

Company Profile

Since 1978, Dimension Funding has worked hard to build and maintain its reputation as a trusted source of capital for small and medium-sized business owners, entrepreneurs, professionals and owner-operators by providing commercial financing and leasing of virtually any equipment, good or product.

KEY FEATURES

- Tax Benefits -The IRS allows for lease payments to be fully deductible if the business uses the leased software/ equipment. A more attractive balance sheet because the monthly lease payment is viewed as a business expense instead of a liability or long-term debt.
- Leasing Overcomes Budget Limitations - Leasing lets you get the software free of budget ceilings. Having low monthly payments lets you hold expenditures within budget limits.
- Leasing Conserves Cash - Since a lease does not require a down payment, it is equivalent to 100% financing. Unlike many other types of financing, a lease does not require compensating minimum bank balances.
- Fast turnarounds, no collateral required and flexibility to use funds for anything needed.
- Shorter terms to allow quick pay back without any large long term debt.
