

SPS COMMERCE
INFINITE RETAIL POWER™

Point of Sale Analytics

Product Description

With Point of Sale (POS) Analytics, gain total visibility into product performance across all your sales channels and uncover profitable new opportunities. Our cloud-based service provides a comprehensive view of every corner of your business, so you can refine forecasting, identify which retailers and products need the most attention and pinpoint risk of stock-outs or oversupply before they become costly problems. Using more than 800 retail industry standard metrics, our systems and staff cleanse and normalize your POS data so you can be confident that analyses are accurate. Spend less time cleansing and consolidating and more time using the data to make insightful business decisions.

Company Profile

SPS Commerce is the retail industry's largest trading community with more than 60,000 customers in over 50 countries. Tens of thousands of partners across the globe trust us to perfect their trading partner relationships. SPS Commerce sharpens omnichannel retail supply chains allowing business to advance at the pace of the consumer through a collaborative network community and the latest in cloud-based solutions.

KEY FEATURES

- Use pre-built enterprise dashboards to rapidly assess opportunities to optimize your product assortment and sell-through
- Unlimited support and training, with our team of analysts who are uniquely qualified to identify potential data issues and solve problems before they impact your business
- User-friendly reporting allows you to easily create, save and share analyses across your organization—all without the need for IT
- Become a strategic ally to your retailer trading partners by providing business recommendations in your conversations with buyers
- SPS Commerce (NASDAQ: SPSC) is one of the largest providers of cloud-based EDI and retail performance analytics in the world, with more than 60,000 customers in 60 countries and over 1,200 employees
