

Sales Tax Module for AccountMate

Product Description

Creating sales tax codes and updating them for additions, deletions and sales tax rate changes in AccountMate can be a daunting task, especially when your company is required to collect sales tax for many locations within a state or for multiple states.

Additionally, entering the city and state on sales orders and invoices and then determining the proper sales tax code is a time-consuming task for your staff which is sometimes done improperly.

The Sales Tax Module solves these issues by providing you with a complete set of sales tax codes, sales tax rates, zip codes, cities, states and counties which is updated monthly using a simple import function.

With the Sales Tax Module, when you enter the zip code, it determines the proper city, county, state, tax jurisdiction, sales tax code and rate. Accuracy is ensured because the sales tax code and rate are based on the combination of the zip code, city, county, state and tax jurisdiction, not just the zip code.

The Sales Tax Module is fully integrated with AccountMate SQL's Accounts Receivable, Sales Order, Return Merchandise Authorization and Contact Manager Modules. AccountMate source code is not required.

Company Profile

Viable Accounting Solutions' staff have extensive backgrounds in accounting, consulting, construction, system design, programming and technical support. Each staff member has over 15 years of AccountMate experience. With this expertise, they provide their clients with solid and practical solutions to meet their business requirements.

Founded in 1990, Viable Accounting Solutions is an AccountMate Elite Business Partner and has received the annual Outstanding Sales Achievement for the Western Region for almost every year since 2008. In 2007, they received a special award as an AccountMate Vertical Solution Partner in Recognition of Innovated Integration for the JobCost Module. In 2008, they received the prestigious President's Award from AccountMate's President David Dierke. In 2011, they received the Exceptional Performance Award from INFOtrac for AccountMate. Accounting Today, a well-known national accounting publication, selected Viable Account Solutions as one of the "Top 100 Technology Pacesetters" in the nation for 2008 and 2009.

Third party software included on this site has not been tested and is not endorsed by AccountMate Software. Technical support and warranties are the responsibility of the issuing company.
