

SentricWorkforce

Product Description

Sentric® has developed SentricWorkforce®, a comprehensive suite of workforce management software and support services designed to assist organizations of all sizes with the day-to-day and strategic management of their most important asset – their Human Capital. We've integrated human resources, payroll, and time and labor management (SentricWorkforce®) in a scalable architecture that allows us to provide one or more modules to meet our clients' needs today and into the future.

With Sentric®, spend more time managing your talent and less time managing your data.

Our completely integrated Software-as-a-Service (SaaS) cloud-based suite of HRMS, Payroll Processing and Time & Labor Management solutions deliver innovation, productivity and control. All this, built within the framework of our proven dedicated service model, ensures our clients can efficiently manage their staff from recruitment through retirement. Our scalability and flexibility allow us to create a solution that fits your needs today and will grow with you as your needs change.

Human Resources – End-to-end functionality and 24/7 access unleash strategic capabilities for managers and empower employees and candidates - benefiting your entire organization.

Time and Labor Management – Comprehensive solutions that efficiently track, manage and understand your time and labor costs.

Company Profile

For over 20 years, Sentric has been providing small and medium-sized businesses payroll and human resources software. Founded in Pittsburgh in 1994, Sentric now has offices in Huntington Beach, CA and Denver, CO.

Our vision is simple: to make technology that strengthens the interactions between companies and their people. And what makes us different is the often forgotten notion that a client's business is earned every day, long after the sale.
