a better sense of time™

# TimeClock Plus

## Product Description

TimeClock Plus is a nationally recognized, workforce management solution offered as a perpetually licensed product as well as a hosted software-as-a-service subscription-based solution that fits the needs of organization large and small.

The Express Edition is for clients with minimum needs. Employees can clock in and out with a clock device or from the PC and managers can view the punch information and edit records as needed. The Express Edition also comes with eight different reports.

The Standard Edition is for small business clients with moderate needs for tracking employee time and scheduling. With the Standard Edition, a pre-set Dashboard provides administrators quick and easy access to critical business information such as employees who have missed a punch or employees who may be approaching overtime.

The Professional Edition is for organizations that need a full-featured solution. Customized Dashboards, Accrual Tracking as well as full scheduling with more than fifty different reports are part of the feature set that makes the professional edition the most powerful and comprehensive time and attendance solution on the market today. Additional functionality like shift differential, job costing and payroll exporting are provided as add-on features for clients with specialized needs.

Whether an organization has 5 employees or 50,000 employees TimeClock Plus solutions can accommodate in-depth functionality that includes enterprise needs such as multiple overtime settings across different time zones, shift differentials, paid sick leave tracking and affordable care act benefit monitoring.

TimeClock Plus also provides employee entry devices such as pin entry, card swipe, and biometric solutions. The RDTg peripheral clock devices are equipped with a 7" full-color touch display that allows employee self-service options all within a beautiful and intuitive user interface. The software and hardware combinations provided by TimeClock Plus present unprecedented flexibility and functionality.

## Company Profile

Since 1988, TimeClock Plus has developed time and attendance solutions for employee labor tracking, providing solutions that range from enterprise class organizations with tens of thousands of employees, to mid-sized businesses, as well as small businesses with only 5 or 10 employees; making the company a recognized leader in time and attendance and employee labor management technology. The Company has been recognized with several local and national awards such as Texas Small Business of the Year, Deloitte Fast 50, and The Deloitte Fast 500. Today, TimeClock Plus continues to fill the needs of more than 60,000 companies worldwide.

Third party software included on this site has not been tested and is not endorsed by AccountMate Software. Technical support and warranties are the responsibility of the issuing company.

## KEY FEATURES

- Automating Time and Attendance Functions – employees are able to record time through pc or time clock entry. Supervisors are able to view, edit, manage and report employee hours through manager dashboards.
- Employee Self-Service – Employees are able to view schedules, accrual information, as well as time worked from graphical clock displays, workstations, or kiosks.
- Streamline Payroll Procedures – Employee hours can be exported to payroll programs eliminating manual data entry and reducing errors.
- Flexible Deployment – No client installation required. The customer's IT department simply provides a URL to access the TimeClock Plus program
- Web-Based (Browser-Based) – TimeClock Plus can be accessed through Chrome, Internet Explorer, Firefox, or Safari browsers from any workstation, anywhere.

## PRODUCT COMPATIBILITY

AccountMate SQL &  
Express versions 9.x
